

# Household Budget and Loan Affordability Plan

King David Agbidi | Engineer | Prepared 22 June 2026 | Figures monthly unless stated

**LOAN REQUESTED: 30,794 euro over 24 months at 7.99% (8.29% APR) = approx 1,393 euro / month**

Purpose: 24,000 home fit-out + 2,300 work car + 4,494 consolidate existing loan.

Consolidating the old loan (approx 4,494 at 10.4%, 160/mo) ends that higher-rate payment.

## INCOME

|                                   |                 |
|-----------------------------------|-----------------|
| Net salary (employment, engineer) | 4,400.00        |
| <b>Total monthly income</b>       | <b>4,400.00</b> |

Conservative figure. This is the minimum and can be more. No other income included.

## OUTGOINGS

|                                                               |                 |
|---------------------------------------------------------------|-----------------|
| Living costs (food and fuel, card cleared in full each month) | 1,500.00        |
| Car insurance                                                 | 197.00          |
| Electricity                                                   | 100.00          |
| Gym                                                           | 99.00           |
| Broadband / WiFi                                              | 55.00           |
| Road tax                                                      | 56.50           |
| Rent                                                          | 0.00            |
| New loan repayment                                            | 1,393.00        |
| <b>Total monthly outgoings</b>                                | <b>3,400.50</b> |

Rent is 0 euro as I live in the family home. This is the key strength of the budget.

## MONTHLY SURPLUS AFTER ALL COSTS AND THE NEW LOAN REPAYMENT

**999.50 euro / month**

When the loan clears in July 2028, approximately 2,392.50 euro / month is freed.

## WHY THIS IS A LOW-RISK LOAN

- Steady employment income of 4,400 euro / month.
- Rent is 0 euro (family home), leaving strong repayment capacity.
- Healthy surplus of approx 999.50 euro / month after the new repayment.
- Consolidates a 10.4% loan into a cheaper 7.99% rate (responsible borrowing).
- Credit card cleared in full every month, no rolling debt.
- Approx 2,000 euro in credit union shares as security. Debt-free by July 2028.
